Scientific Nature

Benefits & Appeals to the user

gENiO[®] iOS is a complete and versatile bio-energetic software used for energetic cleansening that will help to:

- Reduce the stress and stabilize blood pressure.
- Increase virus, parasites, allergens, mites, etc. resistance.
- Neutralize negative emotions.
- Improve memory and brain functions.
- Connect with the deepest emotional roots.
- Enter into a state of illumination.
- Embrace a state of higher consciousness.
- Relax the mind and move away from murky thoughts.
- Speed up the processing of ideas in the brain.
- Slow down the effects of aging.
- Reach extraordinary performance levels.
- Develop the inner potential to accomplish what the mind desires.
- Understand the true potential the Universe has to offer.
- Accomplish much more of life with the right focus and intentionality.
- Learn techniques to control emotions and reactions.
- Access to much more of the mind potential...

Benefits & Appeals to the professional

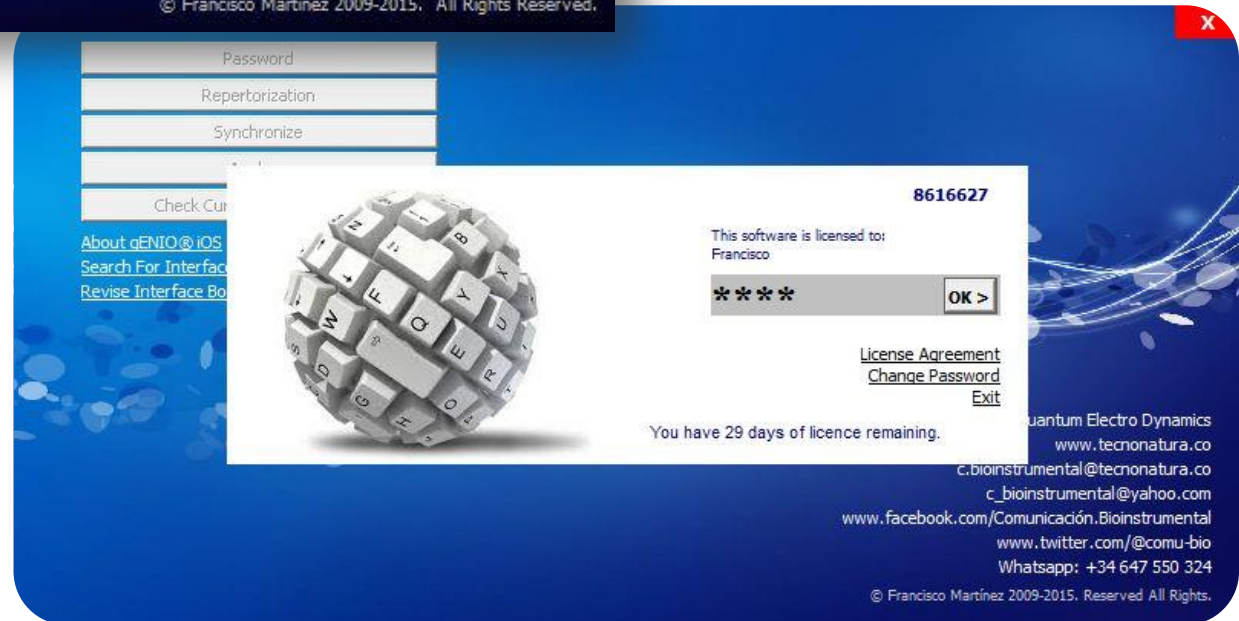

gENiO® iOS is a complete and versatile bio-energetic software used for stress reduction which offers hundreds of advantages and tolos as no other software in the market.

- A clean and profesional interface.
- Screens designed and developed with clarity, purpose and coherence.
- Contextualization of results for a better interpretation.
- Thousands of manual & automatic therapy options that along with the 'Custom Therapies' make the possibilites almost infinite.
- The use of especific 'Bio-Markers' to each therapy improve the results.
- The 'Automatic' options free time from the consultation to concéntrate in more important áreas of your interaction with the person.
- The customized pannels are a great tool that allow an exhaustive revisión of all areas involved and the most relevant items in the conditon or irregular process.
- The constant automatic 'Bio-Optimization' function, regulates the frequencies emissions so that the most optimum therapy is performed according to the person's subconscious needs.

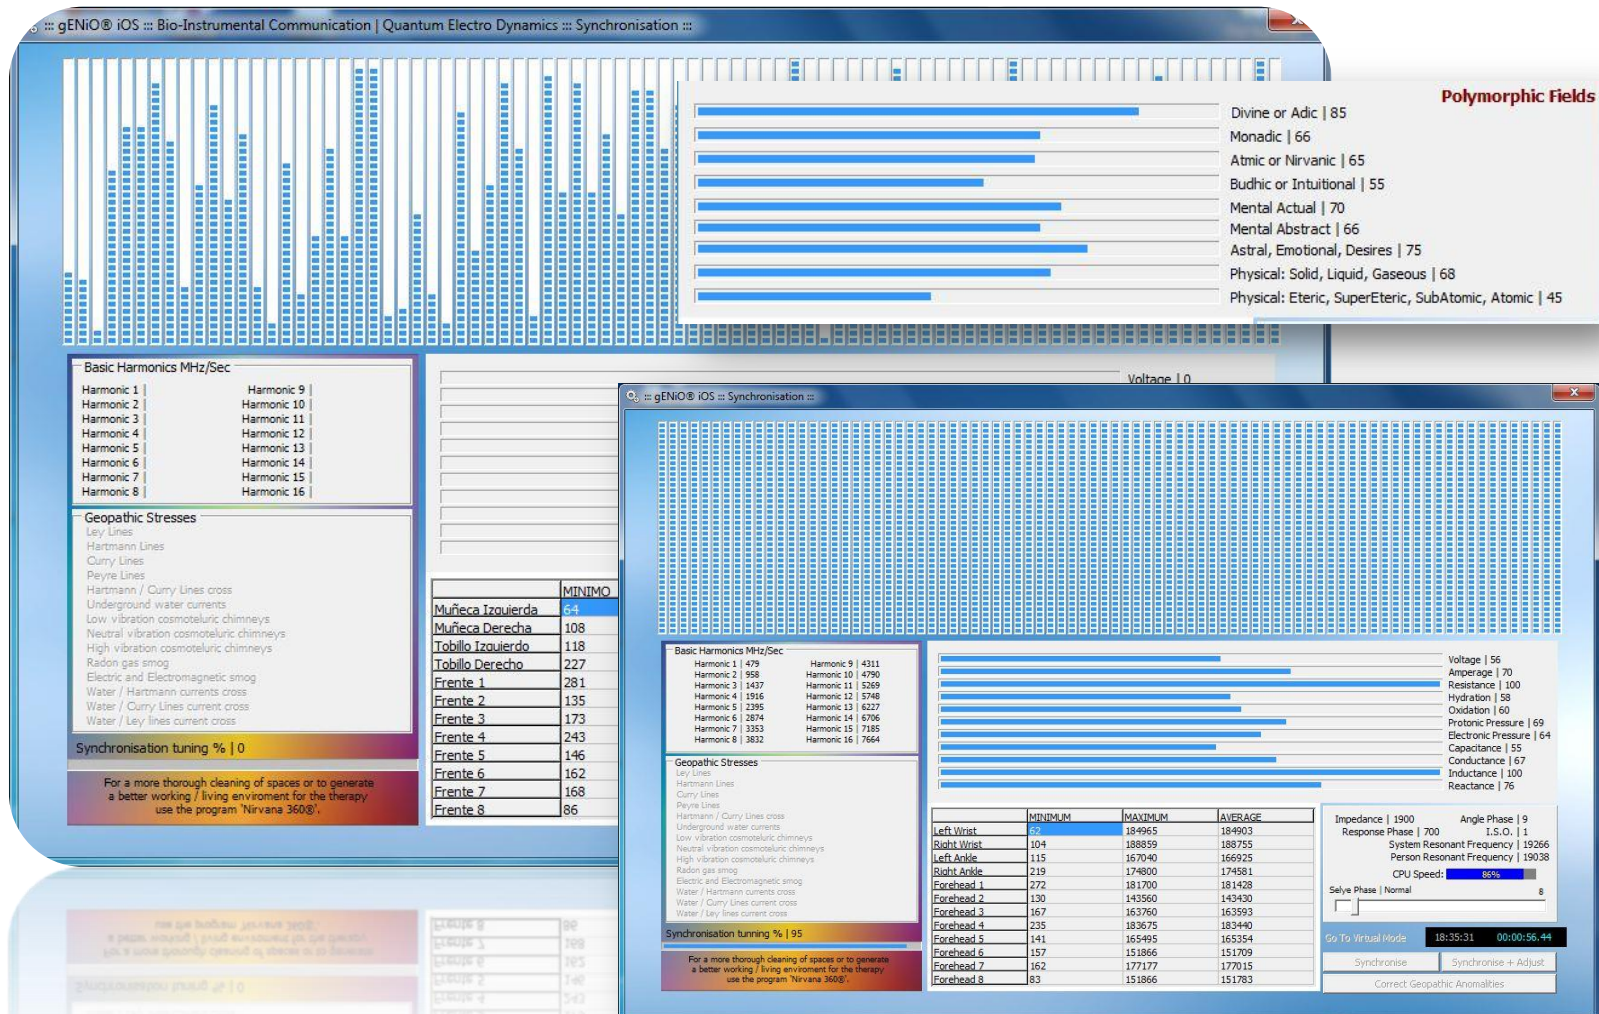

Access & Security

Fast program load and an easy to access screen that protects the data of the user through a password that can be changed at anytime.

Synchronization

In about 1 minute the system synchronizes with the person's reactivity speed to be able to send the frequencies at the most optimum speed. Other relevant data such as 'Basic Harmonic Series' and 'Geopathical Stressors', are gathered at this point.

Repertorization & Data Gathering

An orderly recopilation of symptoms are shown, classified in areas to facilitate searches and better orientate as to how to follow through during the visit.

Neuro-Psycho-Cellular Profile

Having established a difference of the parts of a whole to arrive to its beginnings and elements, here it is shown in a segmented graphic form such results which allow more accurate conclusions.

Biofeedback

To use a thermometer to measure temperature is a common type of biofeedback. Clinical biofeedback follows the same principle but using more specialized tools & software to measure several physiological processes as they happen. Over 300 therapies distributed in 14 areas.

Bioresonance & Scalar Therapies

Scalar Bioresonance is applied to a complete system establishing a basic initial value of a frequency, then it is multiplied by another value corresponding to the average value of voltage, amperage, resistance, resonance and pH, and so on 16 times.

During 2 hours each day, a meridian is in 'Maximum energy' levels and the following 2 hours is in 'Minimum energy' levels.

Orgon Field Generators

The Orgon or Orgonic Energy is an idea proposed and promoted in the 1930's decade by the psychoanalyst Wilhelm Reich, who originally created this term to describe the Universe vital force.

Quantic Indeterminance Field

Being the 'Intentionality' the first requisite in the 'Quantum Electro Dynamics', here we apply energy levels to the 'Thin structure' and 'Divergency problems' to the electromagnetic fields, in order to try to re-normalize the dynamics of the quantic fields.

Individual Reactivity

Once the most reactive items have been determined, further in-depth work can be done to find out the why of such reactivity. gENiO® iOS besides being able to analyze such causes allows an inversion, a zap or an amplification of the resonant frequencies according to the interpretation or therapeutical criteria.

Bioresonance, Rejuvenating & DNA

The Desoxyribonucleic Acid or DNA, is a nucleic acid which contains genetic instructions used for the development and functioning of all known living organisms and some virus. It is responsible for the hereditary transmission and the main role of the DNA molecule is information storage in the long term.

Facial Reflexology

The facial reflexology is a modern technique which has its roots in the Oriental medicine. It is a method that tries to solve the cause of a condition: instead of treating the symptoms, it analyzes and treats the organic, physical and emotional stress, which normally are the cause of a condition. This unit offers the possibility of carrying out custom therapies according to the criteria of the professional or his school background.

Below this list is a "Condition Index" with a scrollable list of ailments such as Alopecia, Ankle Pain, Ankle, Aphasia, Appetite Loss, Asthma, Bite, Sting, Buzzing In Ears, Cervical Vertebrae, Conjunctivitis, Cystitis, Deafness, Diabetes, Ear Buzzing, Eczema, Elbow Pain, Eneuresis, Epilepsy, and Erectile Dysfunction. A note states: "Click once on item label to zap it." Below the list are three vertical bars.

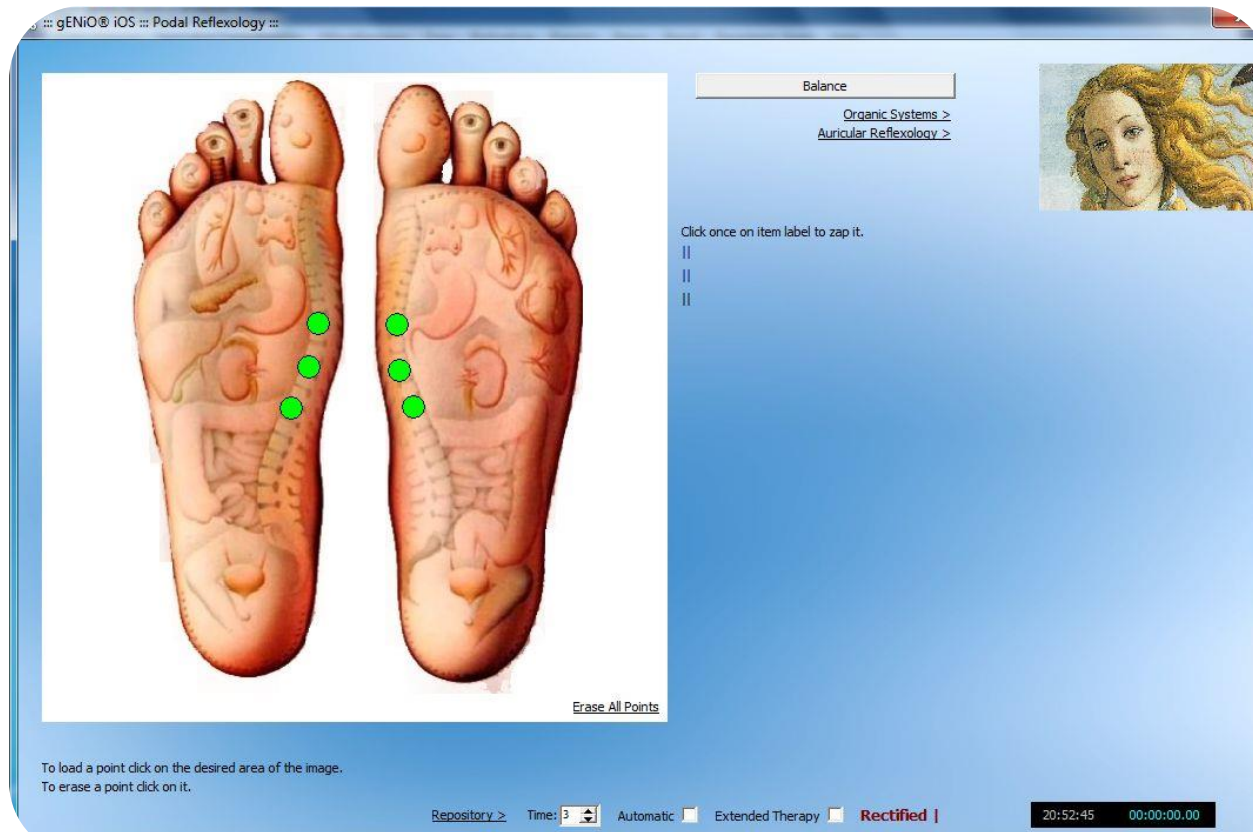

The central area shows two images of an ear. The left ear is a detailed anatomical diagram with various reflex points marked with small icons. The right ear is a realistic image with four green dots indicating specific reflex points. Below these images are buttons for "Custom Therapy >", "Balance", "Organic Systems >", and "Podal Therapy >".

The right panel features a portrait of a woman. Below it, a detailed diagram of an ear is shown with green dots and mathematical formulas: $11\phi = 6,6$ and $6\phi = 3,6$. A text box above the diagram states: "To load a point click on the desired area of the image. To erase a point click on it." A green checkmark icon is in the top right corner of this panel. At the bottom right of the diagram, it says "Erase Points".

The bottom status bar of the software shows "Estimated Time In Secs.", "Repository >", "Time: 3", "Automatic", "Extended Therapy", "Rectified", and a progress bar at 0%.

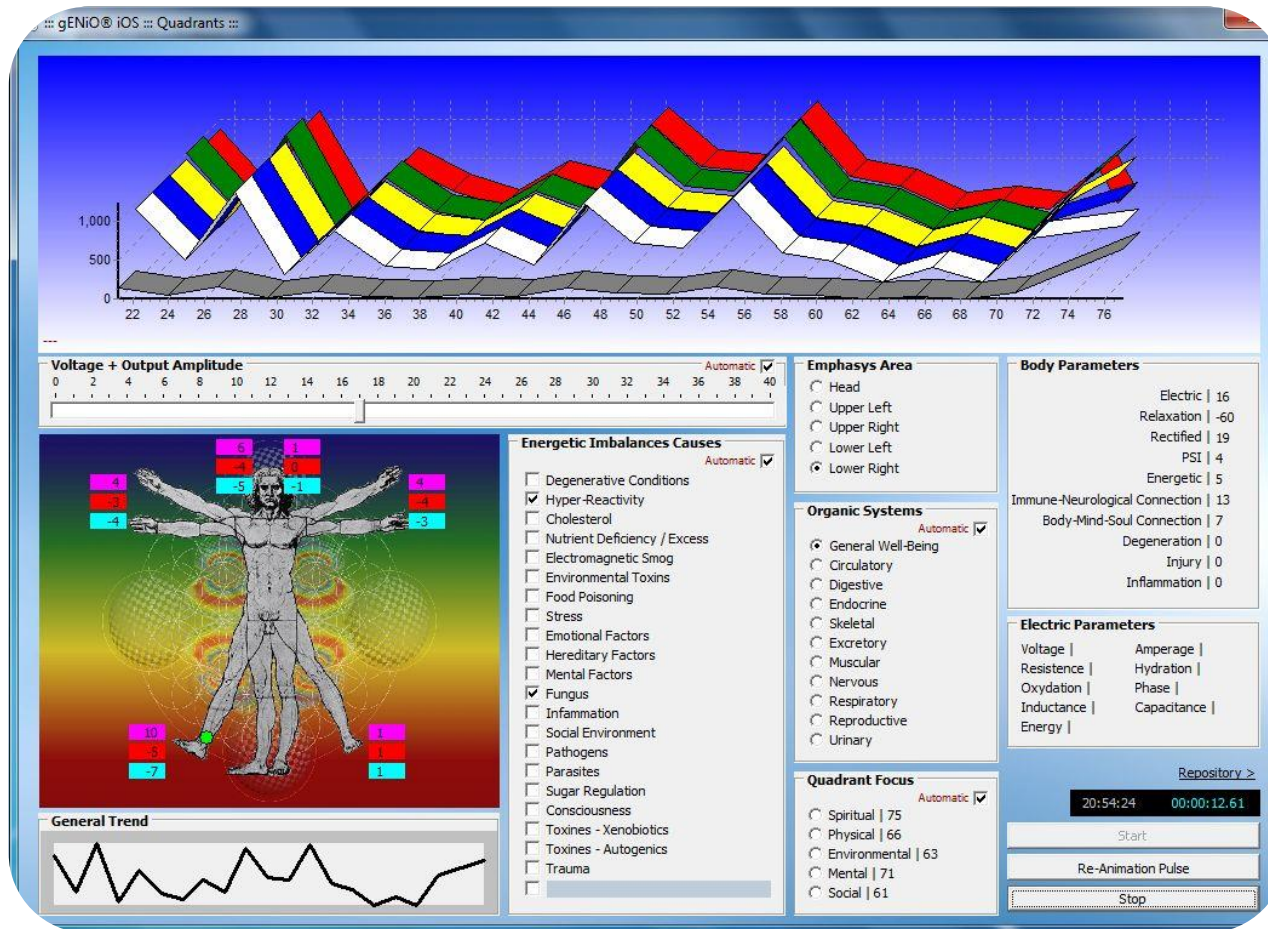

Podal Reflexology

This is a technique that is part of the Chinese Traditional Medicine and that is our system consists of the generation of frequencies that emulate the manipulation of reflex areas in the soles of the feet that correspond to certain areas or organs. The program offers 100% customized therapies.

Quadrants

Therapies of a strict pseudo-voltaic character to enhance the stimulation of the five quadrants considered by the system: physical, emotional, spiritual, social and mental.

We know of the existance of resonant and anti-resonant frequencies of biological, chemical, homeopathic and organic substances. These have capacitance and inductance fields that can be measured. When they are challenged, they reveal voltage and amperage profiles from oxydation and reduction reactions that can be duplicated.

- nerve impulses conduction, oxygen metabolism,
- in the transformation of food into energy, proteins, fats + carbohydrates absorption.
- derives NAD⁺, NADH + H⁺, NADPH + NADP⁺ are essential in the cell energetic metabolism + DNA replication
- nutrient, Formation of coenzyme to CoA, carbohydrates, proteins + fat metabolism + synthesis.
- reproduction of all cells
- hydroxylation of drugs
- hydrolyses, fats, amino acids + purines metabolism.
- brain B-6 Nervous system, bone marrow, cell regeneration, growth + functioning,
- nervous system development, bone marrow, RBC synthesis, intestinal tract functioning.
- necessary for human life, also part of complex B, but that are not vitamins:**
- biotin, epidemic irritation, diarrhea + irritable intestines.
- niacin, anemia, energy, hormonal function + capriciousness.
- pantoic acid (with other B vitamins) Or vitamin R or Bioceratin also PABA]
- thioctic acid regulator + liver functions
- iron, stomach + gallbladder functions + depression.

Neuro Cerebral Stimulation

Through the Neuro Cerebral Stimulation it is pretended that the natural neurone generation process is enhanced. The objective is to improve the cognitive and motor functions in the person. In neuro-degenerative conditions such as Parkinson's, ELA or Alzheimeris, the lost of neurons and lack of dendritic communication are the main cause.

Neuro Anatomy & Emotions

The neuroanatomy is the study of the structure and organization of the nervous system. We explore the connections of such structures to different vertebrae and certain emotions.

Neuro Anatomy & Pain

The neuro anatomy is the study of the structure and organization of the nervous system. Only the organisms with a Central Nervous System may feel pain. This unit allows hundreds of therapies to reduce pain and stress in the person.

Psychobiology

Some discoveries and principles establish that the nature of a condition has universal biological bases and the interaction of the three levels that form the organism: psyche, brain and organs.

Continuous frequency sweeping of long term upon a person has been proven to be of great utility as it enhances the connection with the inner 'I'.

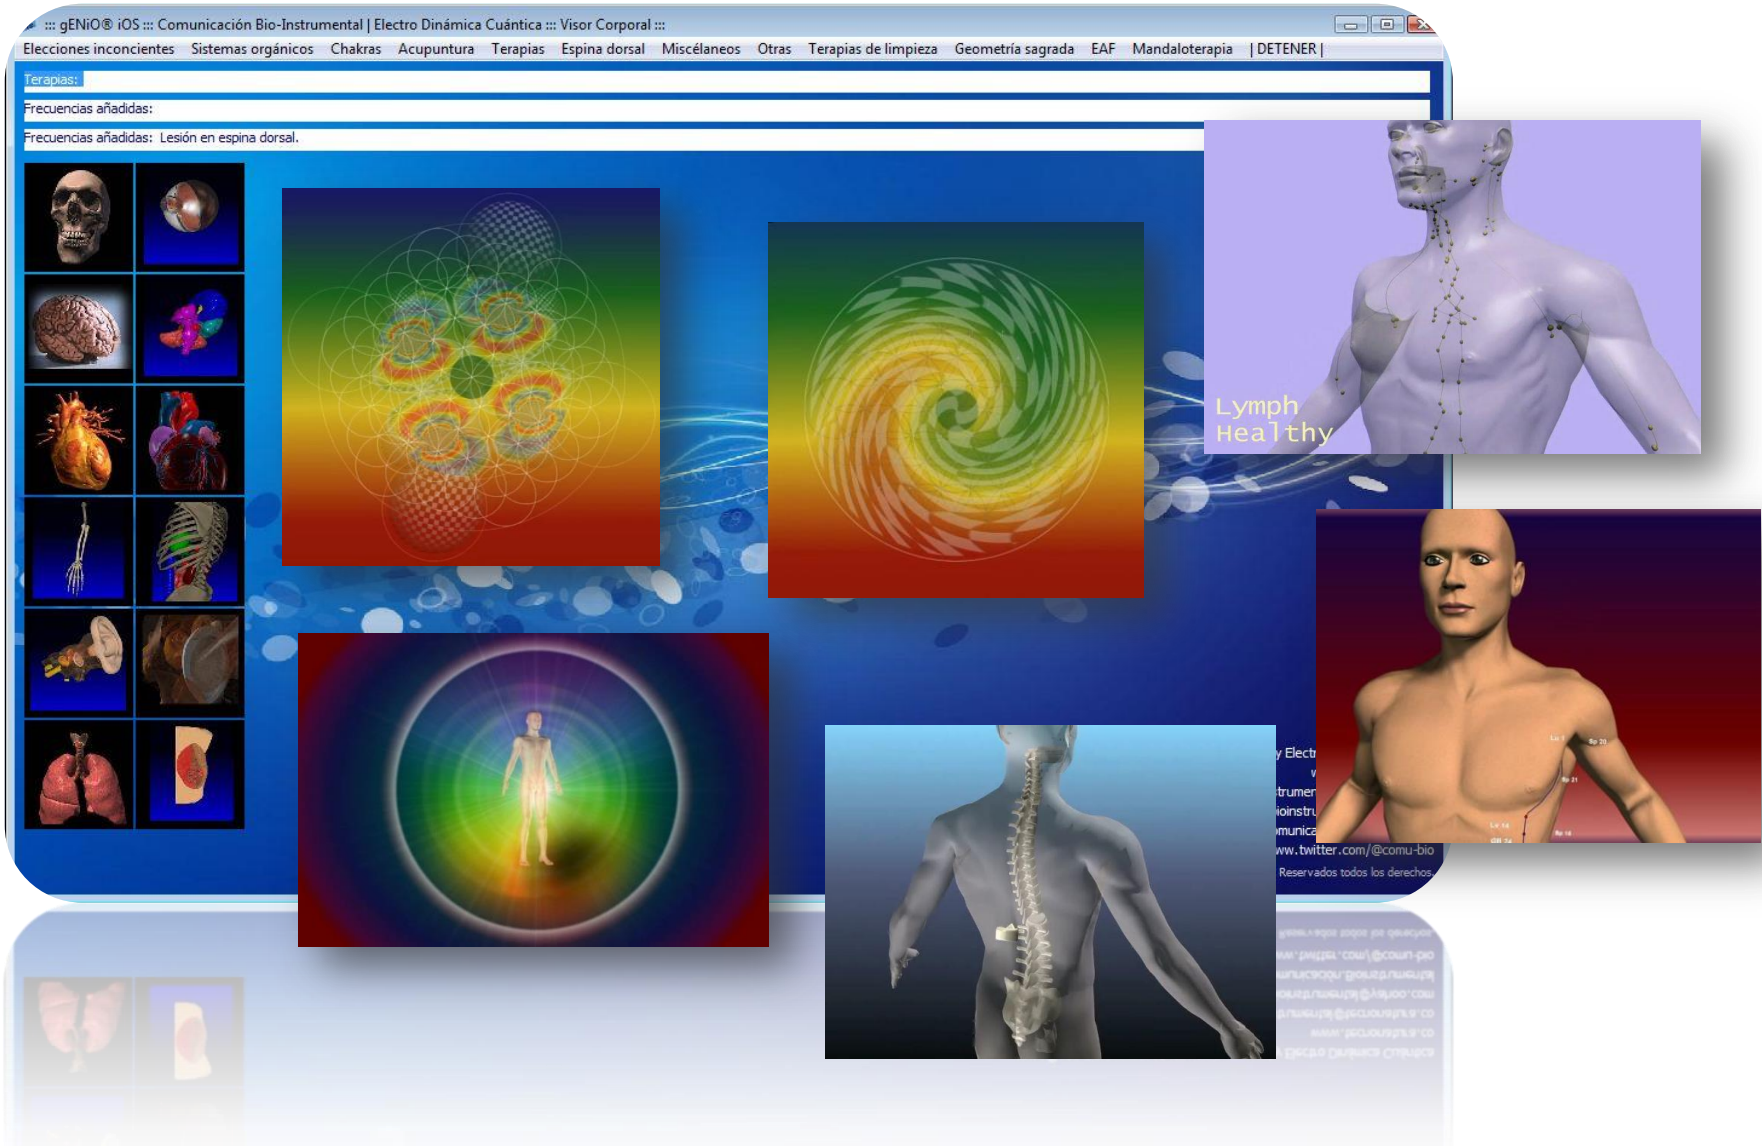

The image is a collage of multiple screenshots from the gENiO iOS application, demonstrating its various features and data visualization capabilities. The main interface includes a top navigation bar with tabs for Prayer, Anatomy, Quadrants, Cs / Aura, Hebrew Alphabet, Denture, Orgon Field, Chromotherapy, Bach's Flowers, Crystal T., Eyes, Acupuncture, and Contemp. Below this, a left sidebar lists 'Automatic' and 'Polymorphic Focus Areas' with checkboxes for various health and spiritual factors. The main content area displays several modules:

- Holos:** A central module featuring a human torso diagram with internal organs labeled with numbers 1-12, a list of focus areas, and a yellow flower image.
- Prayer:** A module showing a list of prayer requests and a small image of a person in a meditative pose.
- Chromotherapy:** A module displaying a list of colors and their corresponding frequencies, along with a small image of a person in a meditative pose.
- Hebrew Alphabet:** A module showing the Hebrew word 'צרי' (Tzari) in large black letters on a pink background.
- Orgon Field:** A module showing a list of focus areas and a small image of a person in a meditative pose.
- Chromotherapy:** A module displaying a list of colors and their corresponding frequencies, along with a small image of a person in a meditative pose.
- Bach's Flowers:** A module showing a list of flower essences and their corresponding frequencies.
- Crystal T.:** A module showing a list of crystal frequencies and their corresponding frequencies.
- Eyes:** A module showing a list of eye frequencies and their corresponding frequencies.
- Acupuncture:** A module showing a list of acupuncture points and their corresponding frequencies.
- Contemp:** A module showing a list of contemporary frequencies and their corresponding frequencies.

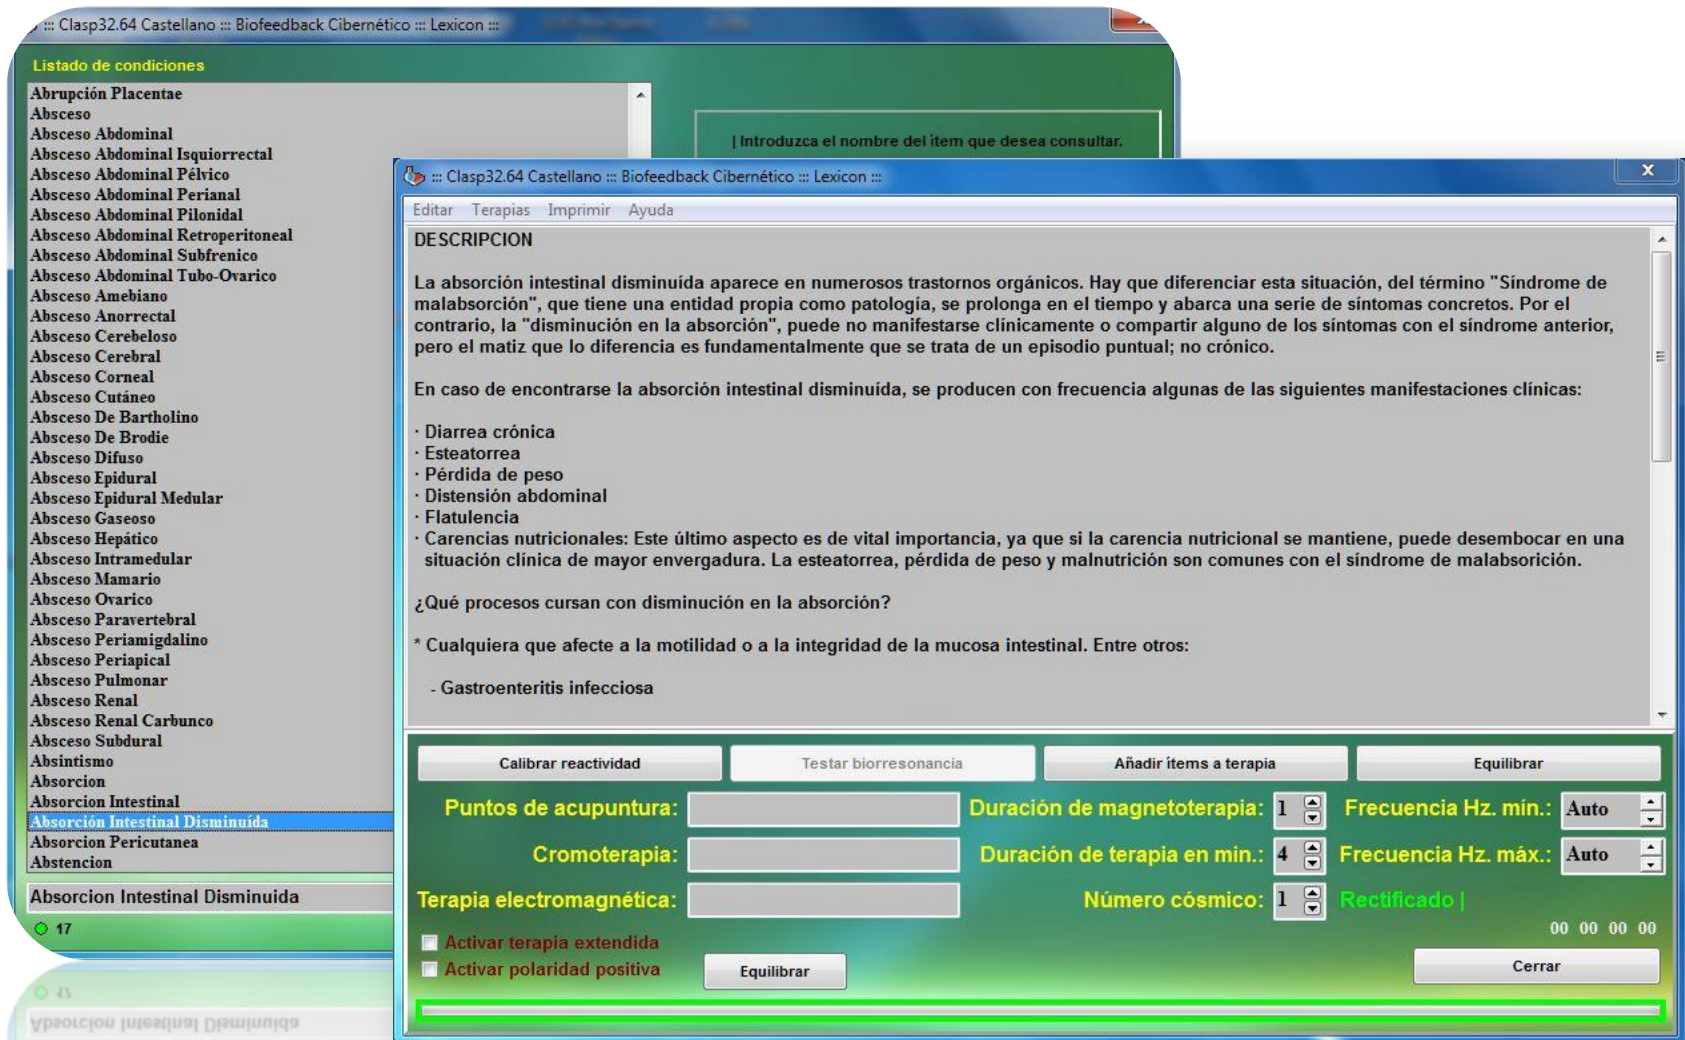

At the bottom of the collage, there are two screenshots showing a list of frequencies and a small image of a person in a meditative pose. The overall theme of the application is holistic health and spiritual connection.

The evocative images allow the person participate more actively in the therapies.

This peripheric program allows radionic therapies to thousands of pathologies, chemical and biological processes.
